

Apex Robotics Inc. - Q4 Financial Results & Independent Audit

NYSE: APRB | Audit Firm: Hawkins & Price LLP | Period Ended: September 30, 2024

1. REVENUE AND GROSS PERFORMANCE

Apex Robotics reported total revenue of \$88.4 million for the fourth quarter of fiscal 2024, representing an 18.5% year-over-year expansion compared to \$74.6 million in Q4 2023. Autonomous warehouse systems generated \$54.2 million (61.3% of total revenue), while recurring maintenance contracts contributed \$34.2 million.

2. OPERATING EXPENSES & NET INCOME

Research and Development (R&D) expenditures were \$16.4 million for the quarter, reflecting investments in next-generation lidar perception sensors. Selling, General, and Administrative (SG&A) costs stood at \$12.1 million. GAAP operating income was \$14.8 million. Net income for the quarter reached \$11.6 million, or \$0.38 diluted earnings per share.

3. CASH POSITION AND BALANCE SHEET STRENGTH

As of September 30, 2024, Apex Robotics held \$214.5 million in cash, cash equivalents, and marketable securities, with zero long-term funded debt. Free cash flow generated during the quarter totaled \$19.2 million.

4. FORWARD FISCAL GUIDANCE

For the full fiscal year 2025, management projects annual consolidated revenue in the range of \$390 million to \$410 million, with expected gross margins between 44.0% and 46.5%.
